Changes in Signature and Filing Requirements for Correspondence Filed in the Patent and Trademark Office

Agency: Patent and Trademark Office, Commerce
Action: Notice of Proposed Rulemaking
Summary: The Patent and Trademark Office (Office) is proposing to amend the rules of practice in patent and trademark cases to: specify the types of correspondence which would no longer require original signatures; provide for facsimile transmission of certain correspondence to the Office; discontinue use of the drop box at Crystal Plaza Building 3 and at the Department of Commerce Building in Washington, D. C.; and clarify other provisions with respect to practice before the Office.
Dates: Written comments must be received on or before Oct. 13, 1992 to ensure consideration. An oral hearing will not be conducted.
Addresses: Address written comments to the Office of the Assistant Commissioner for Patents, Box DAC, Washington, D.C. 20231, marked to the attention of Abraham Hershkovitz. Comments may be sent by facsimile to the attention of Abraham Hershkovitz at (703) 305-8825.
For Further Information Contact: Abraham Hershkovitz by telephone at (703) 305-9282 or by mail marked to his attention and addressed to Office of the Assistant Commissioner for Patents, Box DAC, Washington, D.C. 20231.
Supplementary Information: The specific revisions proposed are discussed below:

(1) Types of correspondence no longer requiring original signatures(§ 1.4)

The phrase "correspondence" is proposed to be utilized since the terms "papers", "letters" and "fees" all fall within the generic definition of "correspondence". Prosecution of some applications has been significantly delayed in the past by the Office requirement that all responses be personally signed. That requirement for a personal signature would prevent the Office

from accepting the filing of certain correspondence by facsimile transmission as explained in the discussion of proposed § 1.6(d).

It is therefore proposed that § 1.4(d) be added to specify the types of correspondence which require personal signatures and the manner in which correspondence should be signed. The Office will accept copies of correspondence which do not require an original handwritten signature, including photocopies or facsimile transmissions. For example, a photocopy or facsimile transmission of an amendment signed by the attorney may be submitted to the Office. However, a photocopy or any other reproduction of a signature may not be affixed, by anyone other than the person whose signature is being reproduced, to correspondence requiring a signature. Correspondence submitted to the Office with original signatures should be submitted with signatures in a color of ink different from the printing on the paper so that the Office may easily recognize that the correspondence has been personally signed. Correspondence bearing an original signature, if not submitted to the Office, should be retained by applicants as evidence of proper execution in the event that questions arise as to the authenticity of the photocopy or facsimile-transmitted correspondence. If a question of authenticity arises, the Office may require submission of the correspondence bearing the original signature.

Correspondence submitted in an application filed under the Patent Cooperation Treaty often require an original handwritten signature either by the treaty or the regulations under the treaty. Other examples where original signatures will continue to be required are in patent interference proceedings, enrollment and disciplinary investigations and disciplinary proceedings. Proposed § 1.4(e) identifies the types of correspondence which will continue to require original signatures. Copies, including photocopies or facsimile transmissions, of correspondence which require an original handwritten signature will not be accorded a filing date and may be disposed of. (See § 10.18 for signature requirements of a practitioner). Furthermore, when certified documents must be filed, such as a certified copy of a foreign patent application, pursuant to 35 U.S.C. 119; a certified copy of a foreign trademark registration, pursuant to 15 U.S.C. 1126(e); a certified copy of a final court order, pursuant to 15 U.S.C. 1119; or a certified copy of a U.S. trademark registration, only the original certification is acceptable for filing in the Office. However, this requirement for an original certification of documents does not apply to certifications such as required under §§ 1.8, 1.10 and 1.97(e). The phrase "personal signature" and "personally signed" as used in this section refers to an original handwritten signature.

(2) Identification of applications (§ 1.5)

Section 1.5(a) is proposed to be amended to make reference to the certificate procedure under § 1.8 consistent with the newly proposed title for § 1.8.

(3) Receipt of correspondence (§ 1.6)

A descriptive heading is proposed to be added to each paragraph of § 1.6 to identify the content of that paragraph.

The phrase "correspondence" is proposed to be utilized since the term "papers", "letters" and "fees" all fall within the generic definition of "correspondence".

Section 1.6(a) is proposed to be amended to clarify that correspondence transmitted by facsimile on weekends and Federal holidays within the District of Columbia, will be accorded the next business day as a receipt date.

Sections 1.6(b) and (c) are proposed to be amended to clarify that weekdays refer to any day except a Saturday, Sunday, or Federal holiday within the District of Columbia.

Section 1.6(c) is proposed to be amended to delete reference to the box locations in the lobby of Crystal Plaza Building 3, Arlington, Virginia and at the Department of Commerce Building in Washington, D.C. The use of the drop boxes was discontinued on April 21, 1992 and the hours of operation for the attorney's window were extended to midnight, the same hours the drop boxes were available. The public can now deposit correspondence with the Office and receive a receipt after normal business hours. See "Changes in How Papers May be Filed in the Patent and Trademark Office", 1137 *Off. Gaz. Pat. Office* 7 (April 7, 1992). Use of the drop boxes at Crystal Plaza Building 3 and Department of Commerce Building locations had caused problems for both the public and the Office. It occasionally had been difficult to determine the dates of actual deposit of correspondence in the boxes. On occasion, Office employees and/or members of the public had been denied access to the drop box at the Department of Commerce by building security guards due to a special event taking place at the Department. Additionally, there were instances of correspondence being found outside of the drop boxes (e.g., on the floor of the main lobby of the Department of Commerce Building, on the guard's desk, on a nearby table, etc.). As a result, on occasion, the Office lacked confidence in assigning correct dates of receipt to correspondence deposited in the boxes at Crystal Plaza Building 3 and at the Department of Commerce Building. Given these difficulties, and the fact that the necessity for these boxes is greatly diminished as a result of the facsimile transmission and certificate of transfer (formerly mailing) procedures, § 1.6(c) is proposed to be permanently amended by deleting reference to the drop boxes at Crystal Plaza Building 3 and the Department of Commerce Building. While this procedural change has already been implemented, the Office welcomes comments regarding the boxes before the procedure is finalized.

A new section 1.6(d) is proposed to be added to specify the types of correspondence which may be transmitted by facsimile and current § 1.6(d) is proposed to be redesignated as § 1.6(e). The widespread use of facsimile transmission and the resulting time saved in correspondence between applicants and the Office prompted the Office to establish a trial program to accept facsimile transmission of certain correspondence. The policy on "Filing of Certain Papers and Authorizations to Charge Deposit Accounts by Facsimile Transmissions" was published at 1096 *Off. Gaz. Pat. Office* 30 (Nov. 15, 1988) and was supplemented in the notice "Filing of Certain Papers with the Board of Patent Appeals and Interferences by Facsimile Transmission" published at 1108 *Off. Gaz. Pat. Office* 15 (Nov. 14, 1989). A comparable policy for trademarks was announced at 1123 *Off. Gaz. Pat. Office* 18 (Feb. 12, 1991). In light of the success of the trial program, a policy on acceptance of facsimile transmission is proposed to be incorporated into § 1.6(d). The exceptions to the use of facsimile-transmitted correspondence have been reduced and are identified in proposed § 1.6(d)(1)-(8). The exceptions cover situations where the correspondence being transmitted are original documents or correspondence requiring original signatures as specified in proposed § 1.4 and situations where accepting a facsimile transmission would be unduly burdensome to the Office. As a courtesy, the Office will attempt to notify senders whenever a facsimile transmission received falls within one of these exceptions. Senders are cautioned against submitting such excepted correspondence by facsimile transmission since such correspondence will not receive a filing date or date of receipt in the Office, and are subject to disposal.

Drawings and other correspondence filed for the purpose of obtaining an application filing date will not be accorded a date of receipt if transmitted by facsimile. Formal drawings may not be filed by facsimile in patent applications because the quality of the drawings received by facsimile transmission is not of a quality sufficient to comply with the drawing requirements set forth in § 1.84. Applicants are therefore encouraged to submit by facsimile only informal drawings or proposed drawing corrections.

As to specimens and drawings in trademark cases, the proposed rule relaxes the requirements set out in the notice entitled "Filing of Certain Trademark Papers and Authorizations to Charge Deposit Accounts by Facsimile Transmission", 1123 *Off. Gaz. Pat. Office* 18 (Feb. 12, 1991). The proposed rule continues to prohibit the transmission by facsimile of the original application, the section 8 or section 9 affidavit, the statement of use or the amendment to allege use. However, the proposed rule permits the facsimile transmission of drawings or specimens in response to an Office action. The same standards of drawing clarity and size apply to drawings received via facsimile. In a like manner, facsimile-transmitted specimens must be legible in order to be accepted and examined as specimens.

The date of receipt accorded to any correspondence permitted to be sent by facsimile transmission is the date the complete transmission is received by an Office facsimile unit, unless the transmission is completed on a Saturday, Sunday or Federal holiday within the District of Columbia. Correspondence for which transmission was completed on a Saturday, Sunday or Federal holiday within the District of Columbia, will be accorded a receipt date of the next succeeding day which is not a Saturday,

Sunday or Federal holiday in the District of Columbia. As an example, correspondence sent by facsimile from California on a Friday at 8:45 p.m. is completely transmitted at 9:05 p.m. Pacific time. The complete transmission would be received in the Office around 12:05 a.m. Eastern time on Saturday. The receipt date accorded to the correspondence is the date of the following business day, which in this case, would be Monday.

(4) Certificate of Transfer procedure (§ 1.8)

The title of § 1.8 is proposed to be changed from Certificate of Mailing to the more generic Certificate of Transfer so as to include facsimile transmissions.

Section 1.8(a) presently prescribes procedures for the use of a certificate of mailing to file papers or fees in the Office by first class mail. The phrase "papers or fees" in § 1.8(a) is proposed to be changed to "correspondence" since both "papers" and "fees" fall within the generic definition of "correspondence". Paragraphs (a) and (b) of § 1.8 are proposed to be amended to include correspondence transmitted by facsimile. In the event that correspondence is filed by facsimile transmission, it is recommended that the sending facsimile machine generate a report confirming transmission for each transmission session. This report should be retained by the sender, along with the correspondence used as the original, as evidence of content and date of transfer. Paragraph (a)(2) of § 1.8 is proposed to be amended to include separate headings for correspondence which relate to patents, trademarks and disciplinary proceedings. The sequence of some of the paragraphs found in § 1.8 (a)(2) has been changed in order to have those paragraphs listed under the appropriate heading. The ability to use the Certificate of Transfer procedures has been expanded to the filing of an affidavit under section 15, subsection (3) of the Trademark Act, 15 U.S.C. 1065(3), the filing of a notice of election to proceed by civil action in an *inter partes* proceeding under 35 U.S.C. 141 or section 21(a)(1) of the Trademark Act, 15 U.S.C. 1071(a)(1), in response to another party's appeal to the Court of Appeals for the Federal Circuit, the filing of a notice and reasons of appeal under 35 U.S.C. 142 or a notice of appeal under section 21(a)(2) of the Trademark Act, 15 U.S.C. 1071 (a)(2), and the filing of a statement under 42 U.S.C. 2182 or 42 U.S.C. 2457(c).

Paragraph (a)(2)(vi) of § 1.8 is proposed to be redesignated as paragraph (a)(2)(viii) and amended to refer to section 14(1) or 14 (2) of the Trademark Act, 15 U.S.C. 1064, to conform with the numbering of the Trademark Law Revision Act of 1988. Other sections of paragraph (a)(2) of § 1.8 are proposed to be amended to identify the types of correspondence which will not receive the benefit of a certificate of transfer.

Paragraph (b) of § 1.8 outlines procedures to be followed to document the timely filing of correspondence in accordance with § 1.8(a) where such correspondence is not received by the Office. The phrase "correspondence or fees" in § 1.8(b) is proposed to be changed to "correspondence" since "fees" falls within the generic definition of "correspondence". One of the requirements of § 1.8(b) is that the party forwarding the correspondence or fee include a declaration, under §§ 1.68 or 2.20 of this chapter, attesting to the timely transfer. In order to be consistent with other sections in Parts 1 and 2 of this chapter, the practice under § 1.8(b) is proposed to be amended to permit a practitioner, as defined in § 10.1(r), to submit a statement rather than an oath or declaration under §§ 1.68 or 2.20 of this chapter.

New paragraph (c) of § 1.8 is proposed to be added to explicitly provide for additional evidence relating to the transfer of correspondence in accordance with paragraph (a) of this section. The Office may invoke this requirement where it is deemed appropriate to establish an actual date of mailing or transmission. See, e.g., *In re Klein*, 6 USPQ2d 1547 (Comm'r Pat. 1987). *aff'd sub nom. Klein v. Peterson*, 696 F. Supp. 695, 8 USPQ2d 1434 (D.D.C. 1988), *aff'd* 866 F.2d 412, 9 USPQ2d 1558 (Fed. Cir.) *cert. denied*, 490 U.S. 1091 (1989).

(5) Time for appeal or civil action (§ 1.304)

In section 1.304, paragraphs (a) and (c) are proposed to be amended to delete a statement that use of the certificate procedure under § 1.8 is prohibited so as to be consistent with proposed changes to § 1.8. It is also proposed to clarify a cross-reference to § 1.658 in paragraph (a).

(6) Submission of maintenance fees (§ 1.366)

Section 1.366(b) is proposed to be amended by deleting the words "of mailing" due to the proposed new title for § 1.8.

(7) Filing date of application for extension of patent term (§ 1.741)

Section 1.741(a) is proposed to be amended to refer to the proposed new title for the certificate procedure under § 1.8.

(8) Signature and certificate of practitioner (§ 10.18)

Section 10.18 is proposed to be modified to clarify signature requirements for correspondence signed by practitioners. The reference to § 1.4 of this chapter would make it apparent that copies, including photocopies or facsimile transmissions, of correspondence signed by practitioners will be accepted under appropriate circumstances.

(9) Misconduct (§ 10.23(c))

Section 10.23(c) is proposed to be amended to refer to the proposed new title for the certificate procedure under § 1.8 of this chapter.

Other Considerations

The proposed rule change is in conformity with the requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), Executive Orders 12291 and 12612 and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*

The General Counsel of the Department of Commerce has certified to the Chief Counsel for Advocacy, Small Business Administration, that these proposed rule changes will not have a significant adverse economic impact on a substantial number of small entities (Regulatory Flexibility Act, 5 U.S.C. 605(b)). The principal impact of these proposed changes is to incorporate existing Office policy into the regulations, permit the filing of certain correspondence without an original signature and permit the filing of certain correspondence by facsimile transmission.

The Office has determined that this proposed rule change is not a major rule under Executive Order 12291. The annual effect on the economy will be less than $100 million. There will be no major increase in costs or prices for consumers, individuals, industries, Federal, state or local government agencies, or geographic regions because most of the proposed changes reduce procedural burdens. There will be no significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Office has also determined that this notice has no Federalism implications affecting the relationship between the National Government and the States as outlined in Executive Order 12612.

These proposed rule changes contain collection-of-information requirements subject to the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*, which have previously been approved by the Office of Management and Budget under Control Nos. 0651-0009 and 0651-0011.

For the reasons set out in the preamble, and pursuant to the authority contained in 35 U.S.C. 6, the Office proposes to amend 37 CFR Parts 1 and 10 as follows, wherein deletions are indicated by brackets ([]) and additions by arrows (▶◀):

Part 1 - Rules of Practice in Patent Cases

1. The authority citation for 37 CFR Part 1 would continue to read as follows:

Authority: 35 U.S.C. 6, unless otherwise noted.

2. In Section 1.4, the title is proposed to be revised and paragraphs (d)-(f) are proposed to be added to read as follows:

§ 1.4 Nature of correspondence ▶and signature requirements◀.

* * * * *

▶(d) Each piece of correspondence prepared to be filed in a patent or trademark application, reexamination proceeding, patent file or trademark registration file, which requires a person's signature, must be personally signed in permanent ink by that person. The personally signed correspondence containing the original, handwritten signature, or a copy, such as a photocopy or facsimile transmission (§ 1.6(d)), of the personally signed correspondence may be filed in the Patent and Trademark Office, except as provided in paragraphs (e) and (f) of this section. If the personally signed correspondence is filed, the color of ink used for the signature should be different from the printing on the paper. In the event that a copy of the personally signed correspondence is filed, the personally signed correspondence should be retained as evidence of authenticity. If a question of authenticity arises, the Patent and Trademark Office may require submission of the personally signed correspondence. The phrase "personally signed" as used in this section means an original, handwritten signature.

(e) Correspondence requiring a signature and which relates to patent interference proceedings, enrollment and disciplinary investigations, disciplinary proceedings or international patent applications must be submitted with a personally signed, permanent ink signature.

(f) When a certified document must be filed, a copy, including a photocopy or facsimile transmission, of the certification is not acceptable.◀

3. Section 1.5(a) is proposed to be revised to read as follows:

§ 1.5 Identification of application, patent or registration.

(a) No correspondence relating to an application should be filed prior to when notification of the application number is received from the Patent and Trademark Office. When a letter directed to the Patent and Trademark Office concerns a previously filed application for a patent, it must identify on the top page in a conspicuous location, the application number (consisting of the series code and the serial number, e.g., 07/123,456), or the serial number and filing date assigned to that application by the Patent and Trademark Office, or the international application number of the international application. Any correspondence not containing such identification will be returned to the sender where a return address is available. The returned correspondence will be accompanied with a cover letter which will indicate to the sender that if the returned correspondence is resubmitted to the Patent and Trademark Office within two weeks of the mail date on the cover letter, the original date of receipt of the correspondence will be considered by the Patent and Trademark Office as the date of receipt of the correspondence. Applicants may use either the [certificate of mailing] ▶Certificate of Transfer◀ procedure under § 1.8 or the Express Mail procedure under § 1.10 for resubmissions of returned correspondence if they desire to have the benefit of the date of deposit on the United States Postal Service. If the returned correspondence is not resubmitted within the two-week period, the date of receipt of resubmission will be considered to be the date of receipt of the correspondence. The two-week period to resubmit the returned correspondence will not be extended. If for some reason returned correspondence is resubmitted with proper identification later than two weeks after the return mailing by the Patent and Trademark Office, the resubmitted correspondence will be accepted but given its date of receipt. In addition to the application number, all letters directed to the Patent and Trademark Office concerning applications for patent should also state "PATENT APPLICATION, " the name of the applicant, the title of the invention, the date of filing the same, and if known, the group art unit or other unit within the Patent and Trademark Office responsible for considering the letter and the name of the examiner or other person to which it has been assigned.

4. In section 1.6, the title is proposed to be revised, each paragraph is proposed to be defined by a separate heading, paragraphs (a)-(c) are proposed to be revised, paragraph (d) is proposed to be redesignated as paragraph (e) and revised and new paragraph (d) is proposed to be added to read as follows:

§ 1.6 Receipt of [letters and papers] ▶correspondence◀.

(a) ▶Date of receipt and Express Mail date of deposit.

Correspondence◀ [Letter and other papers] received in the Patent and Trademark Office [are] ▶is◀ stamped with the date of receipt except where such [letters and papers are] ▶correspondence is◀ filed in accordance with § 1.10 ▶or transmitted by facsimile in accordance with paragraph (d) of this section. Correspondence◀ [Any such letters and papers] filed in accordance with § 1.10 will be stamped with the date of deposit as "Express Mail" with the United States Postal Service unless the date of deposit is a Saturday, Sunday or Federal holiday within the District of Columbia in which case the date stamped will be the next succeeding day which is not a Saturday, Sunday or Federal holiday within the District of Columbia. [No papers are received in the Patent and Trademark Office on Saturdays, Sundays, or Federal holiday within the District of Columbia.] ▶Correspondence transmitted by facsimile to the Patent and Trademark Office on a Saturday, Sunday or Federal holiday within the District of Columbia will be stamped with the next succeeding day which is not a Saturday, Sunday or Federal holiday within the District of Columbia, as the date of receipt.◀

(b) ▶Patent and Trademark Office Post Office pouch.◀

(d) ▶Facsimile transmission.

Except in the cases enumerated below, correspondence, including authorizations to charge a deposit account, may be transmitted by facsimile. The filing date accorded to the correspondence will be the date on which the complete transmission is received in the Patent and Trademark Office, unless that date is a Saturday, Sunday, or Federal holiday within the District of Columbia. See § 1.6(a). To facilitate proper processing, each transmission session should be limited to correspondence to be filed in a single national application or other proceeding before the Patent and Trademark Office. The application number of a patent or trademark application, the control number of a reexamination proceeding, the patent number of a patent, or the registration number of a trademark should be entered as a part of the sender's identification on a facsimile cover sheet. Facsimile transmissions are not permitted and if submitted, may be dis-

posed of, in the following situations:

(1) Correspondence which must be filed with a personally signed permanent ink signature as specified in § 1.4(e);

(2) Certified documents as specified in § 1.4(f);

(3) Correspondence which cannot receive the benefit of the certificate of transfer as specified in § 1.8(a)(2)(i)-(xi);

(4) Drawings submitted under §§ 1.81, 1.83-1.85, 1.152, 1.165 or 1.174;

(5) A request for reexamination under § 1.510;

(6) Correspondence to be filed in a patent application subject to a secrecy order under §§ 5.1-5.8 of this chapter and directly related to the secrecy order content of the application;

(8) Correspondence to be filed with the Trademark Trial and Appeal Board, except the notice of ex parte appeal.

(e) Interruptions in the U.S. Postal Service.◀

If interruptions or emergencies in the United States Postal Service which have been so designated by the Commissioner occur, the Patent and Trademark Office will consider as filed on a particular date in the Office any [paper or fee] ▶correspondence◀ which is:

(1) Promptly filed after the ending of the designated interruption or emergency; and

(2) Accompanied by a statement indicating that such [paper or fee] ©correspondence§ would have been filed on that particular date if it were not for the designated interruption or emergency in the United States Postal Service. Such statement must be a verified statement if made by a person not registered to practice before the Patent and Trademark Office.

5. Section 1.8 is proposed to be amended by revising the title and paragraphs (a) and (b) and by adding new paragraph (c) to read as follows:

§ 1.8 Certificate of [mailing] ▶transfer◀.

(a) Except in the cases enumerated below, [papers and fees] ▶correspondence◀ required to be filed in the Patent and Trademark Office within a set period of time will be considered as being timely filed if:

(1) [They are] ▶it is transferred prior to expiration of the set period of time by being:

(2) [They] ▶It◀ also [include] ▶includes◀ a certificate for each [paper or fee] ▶piece of correspondence◀ stating the date of [deposit] ▶transfer◀. The person signing the certificate should have reasonable basis to expect that the correspondence would be [mailed] ▶transferred◀ on or before the date indicated. The actual date of receipt of the [paper or fee] ▶correspondence◀ will be used for all other purposes. Payment of a maintenance fee and any necessary surcharge or the authorization to charge a deposit account must be submitted within the periods set forth in § 1.362(d), (e) or (f). Any payment or authorization of maintenance fees and surcharges filed at any other time will not be accepted and will not serve as a payment of the maintenance fee except insofar as a delayed payment of the maintenance fee is accepted by the Commissioner in an expired patent pursuant to a petition filed under § 1.378. Any authorization to charge a deposit account must authorize the immediate charging of the maintenance fee and any necessary surcharge to the deposit account. Payment of less than the required amount, payment in a manner other than that set forth in § 1.23, or the filing of an authorization to charge a deposit account having insufficient funds will not constitute payment of a maintenance fee or surcharge on a patent. Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information in various formats from the U.S. Patent and Trademark Office. Many PTDLs have on file all full-text patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PDTLs have both the patent and trademark sections of the *Official Gazette of the U. S. Patent and Trademark Office*. The full-text utility and design patents are distributed numerically on 16 mm microfilm, and plant patents on color microfiche. Patent and trademark search systems on CD-ROM (Compact Disc-Read Only) format are available at all PTDLs to increase utilization of and enhance access to the information found in patents and trademarks. It is through the CD-ROM systems that prelminary patent and trademark searches can be conducted through the numerically arranged collections. All information is available for use by the public free of charge.

In addition, each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials. Facilities for making paper copies of patent and trademark information are generally provided for a fee.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particluar library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvience.

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
